

MT Caspian to represent Tideland Signal in Azerbaijan, Kazakhstan and Georgia

31 October 2013

Tideland Signal has appointed MT Caspian to represent its range of aids to marine navigation (AtoN) in Azerbaijan, Kazakhstan and Georgia.

Based in Baku, Azerbaijan, MT Caspian will supply and support the entire Tideland product range including buoys, beacons, lanterns and advanced electronic equipment such as Racons, AIS, Tideland's advanced AIS Viewer (TSD) and remote monitoring systems. In addition to representing Tideland products in a sales capacity the company is also setting up a service and repair centre with factory-trained technicians qualified to deal with every aspect of Tideland equipment.

MT Caspian is part of the powerful Marine Technics group based in St Petersburg, Russia and is a major regional player in the offshore oil and gas market as well as in ports and harbours around the Caspian Sea. The company already represents many other premium brands such as MAN Engines, Volvo Penta, ZF bow-thrusters, Vietz, Emerson and Econosto Valves. It also offers yacht construction, brokerage and charter, as well as a wide range of services and products for the oil and gas industry.

Azer Ibadzade, Managing Director of MT Caspian, Tideland Signal's newly appointed representatives in Azerbaijan, Kazakhstan and Georgia.

Azer Ibadzade, the company's Managing Director, commented: "Tideland is the benchmark in offshore oil and gas markets around the world, so it's ideally placed

to serve the Caspian market. However, I am equally pleased to be able to offer Tideland's advanced, high-reliability LED technology for the region's rapidly advancing ports and harbours, in particular the robust Nova-65 and the self-contained Sola Nova-65 model with integral solar modules and battery.”
