

Tideland appoints Sales Manager for UK and Ireland

24 February 2014

Tideland Signal (Tideland) has appointed Richard (Rick) Wrench (39) Sales Manager for its range of aids to marine navigation in the UK and Ireland.

Rick brings to his new position a wealth of experience of technical lighting products particularly for hazardous applications in the marine sector, offshore oil and gas, petrochemical and other industries. He joins Tideland from STL International and was previously with IMT Lighting and Ecom Instruments.

Commenting on his appointment, Rick Wrench said: "For me, Tideland represents an exciting opportunity to focus my experience of technical lighting on the benchmark product range within the marine industry. With the growing worldwide reputation of these products, Tideland is dedicating resources to concentrate exclusively on UK and Irish ports and harbors. I am looking forward to introducing world-beating products like the highly reliable and robust NOVA-65 and the self-contained SolaNOVA-65 model with integral solar modules and battery to a whole generation of new users in our home territory."

Richard (Rick) Wrench, newly appointed Sales Manager for the Tideland range of aids to marine navigation in the UK and Ireland.

With the appointment of Rick Wrench, Tideland expands its reach in providing the highest quality of aids to navigation to the world. Our development of LED products is certain to provide long-term solutions unmatched by any competitor.

Along with a full range of lanterns, Tideland's evolving product line includes rotationally molded polyethylene buoys, fog signals, fog detectors, solar power systems, racons, remote monitoring systems and vessel traffic monitoring and information solutions.
